

# Pictogramas

**La organización ISO desarrolló una serie de pictogramas que permiten expresar los cuidados o medidas a tener en cuenta con un tipo de carga en específico.**

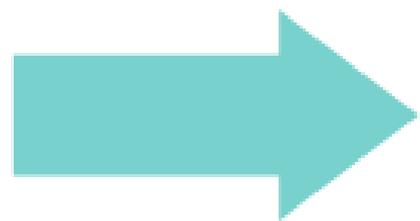

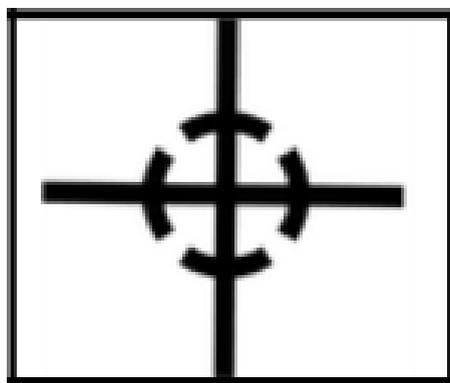

Frágil

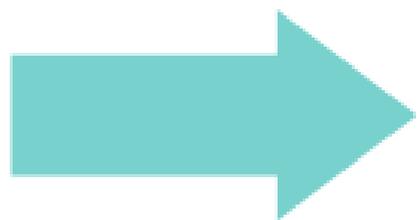

**El contenido del  
embalaje es frágil,  
debe ser manipulado  
con precaución.**

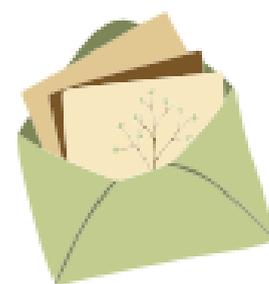

Centro de  
gravedad

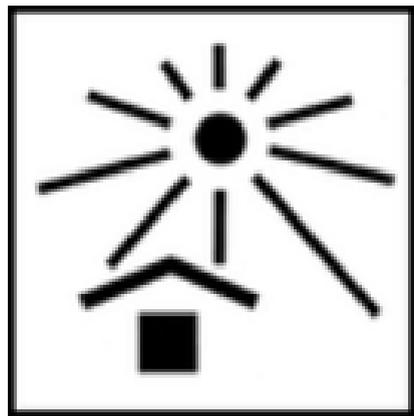

**No debe rodarse el  
embalaje durante su  
almacenaje o  
transporte.**

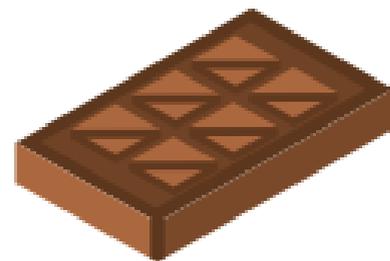

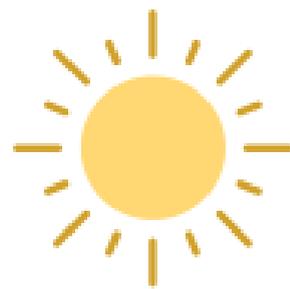

Proteger de  
la lluvia

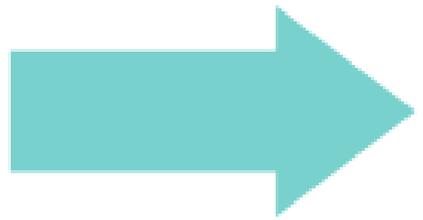

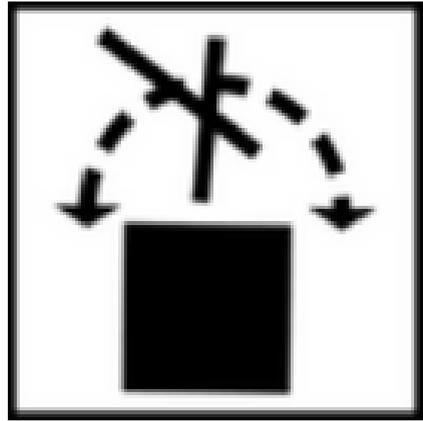

**La mercancía debe ser protegida de lluvia debido a sus características.**

Proteger  
del sol

**Debe guardarse del calor y  
altas temperaturas durante  
su almacenamiento y  
transporte.**

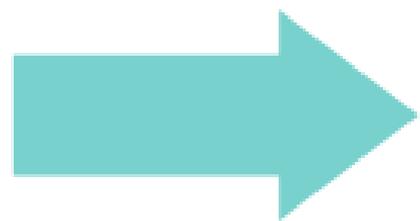

No rotar

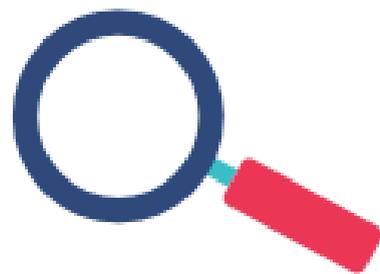

**Transportar sin rotar  
la caja o embalaje  
durante transporte y  
almacenamiento.**

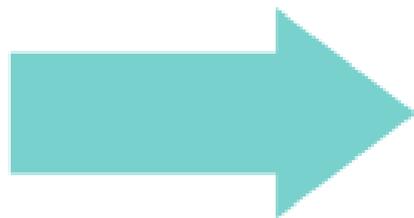

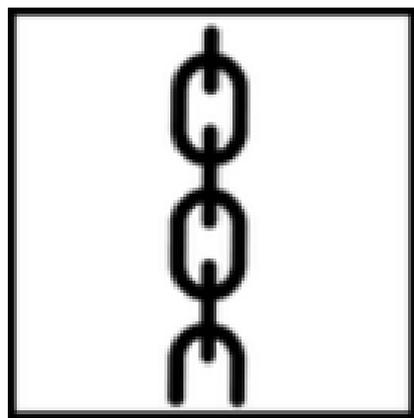

No usar  
gancho

Los ganchos quedan  
prohibidos para manipular  
este tipo de embalaje.

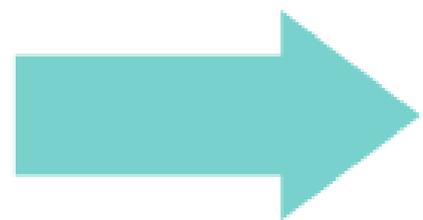

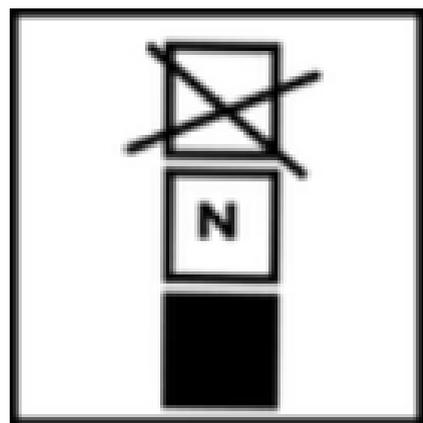

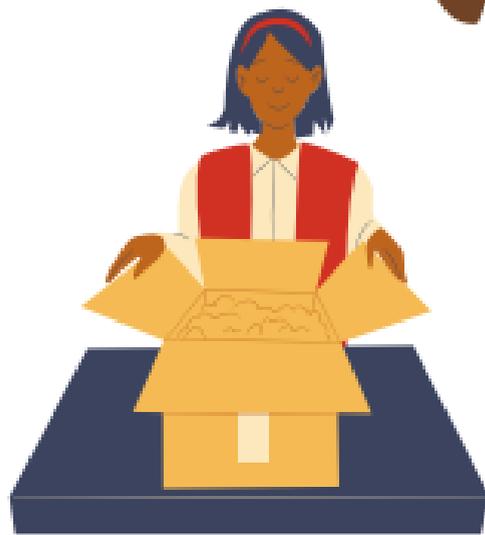

## Eslingar aquí

El emplazamiento  
en que deben  
encontrarse las  
eslingas  
para la elevación  
del embalaje.

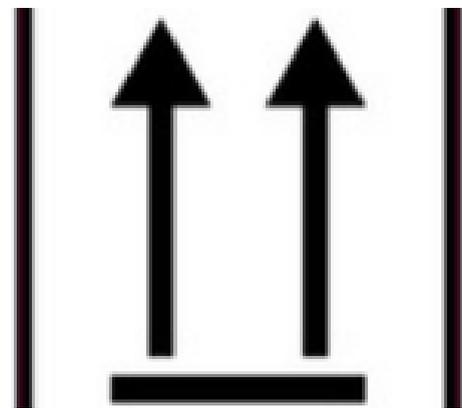

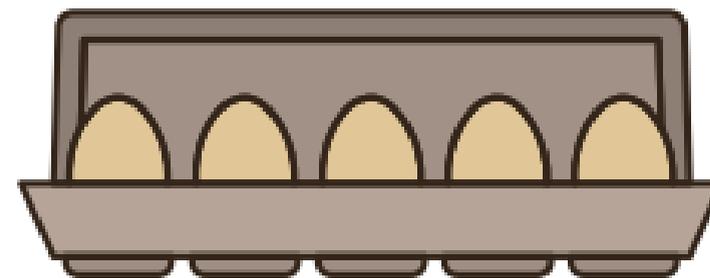

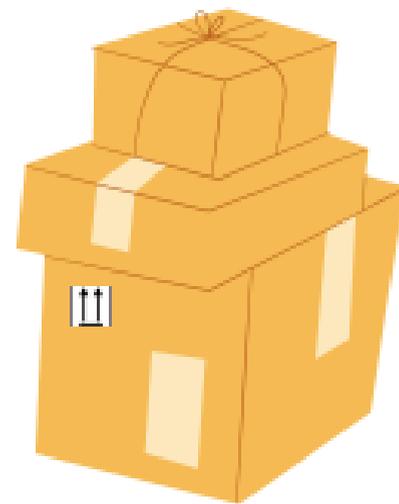

Límite a  
apilar

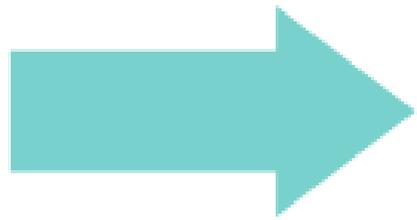

**Número máximo de  
embalajes idénticos que  
pueden ser apilados uno  
sobre otro, donde “n” es  
el número límite.**

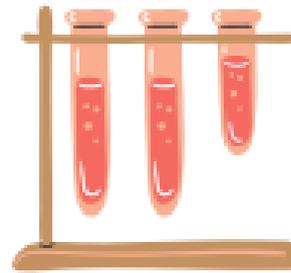

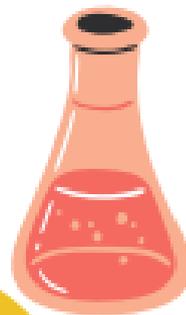

Hacia arriba

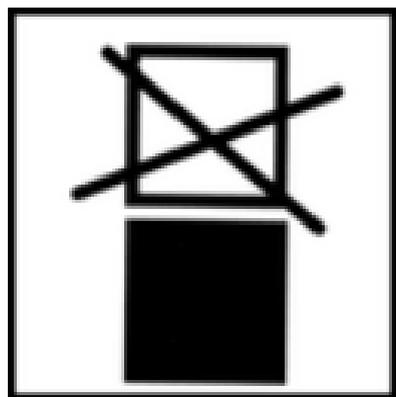

**Indica que el embalaje debe mantenerse en posición horizontal.**

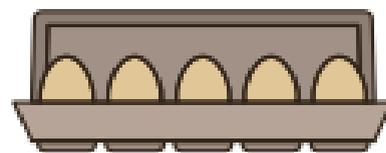

Proteger de radiación

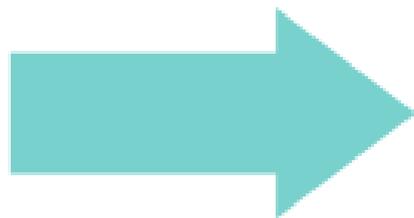

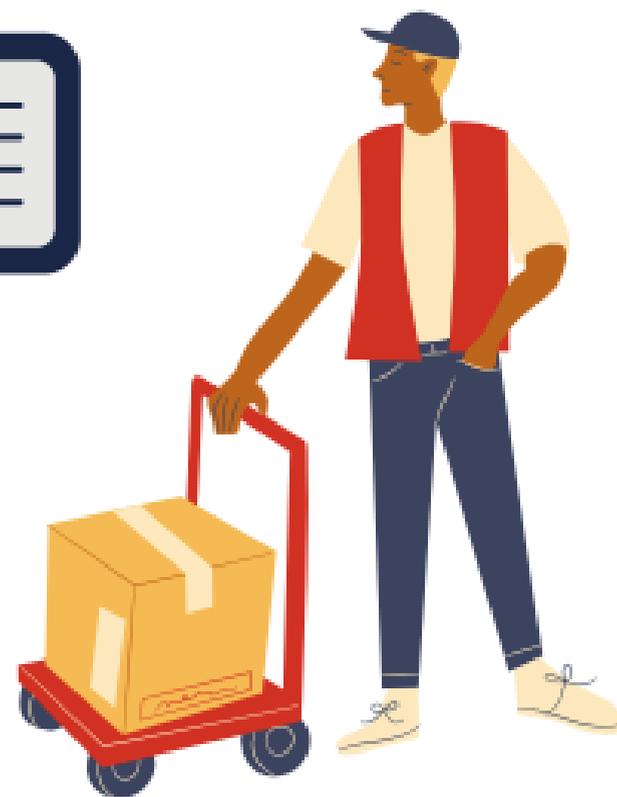

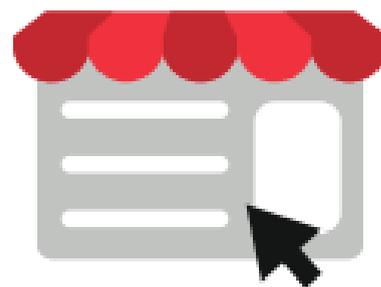

**El contenido puede deteriorarse por las radiaciones penetrantes.**

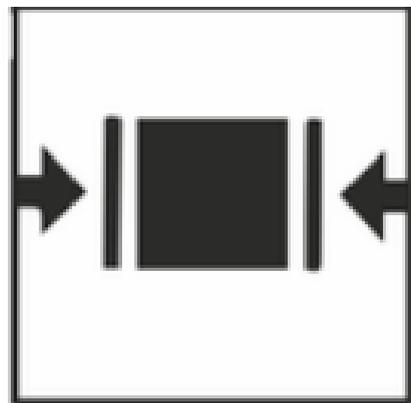

**No apilar**

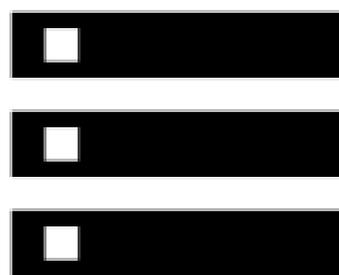

**No está permitido apilar los embalajes y no se debe colocar ninguna carga sobre el mismo.**

Colocar  
mordazas

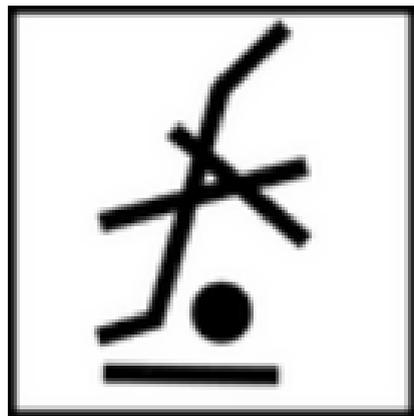

**Las abrazaderas deberán ser colocadas en los lados indicados para manipular el embalaje.**

No usar  
carro  
elevador

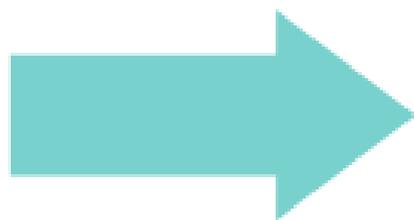

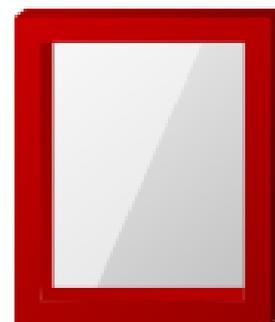

**El embalaje de  
expedición no deberá  
ser manipulado con  
carretillas elevadoras.**

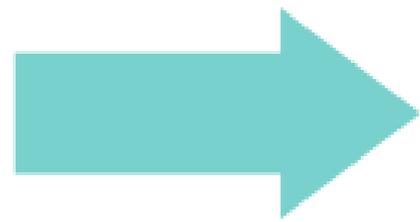

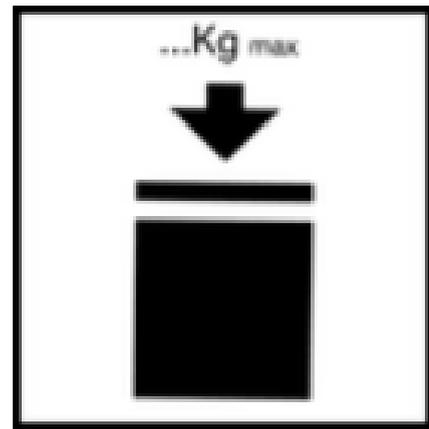

No usar  
horqueta

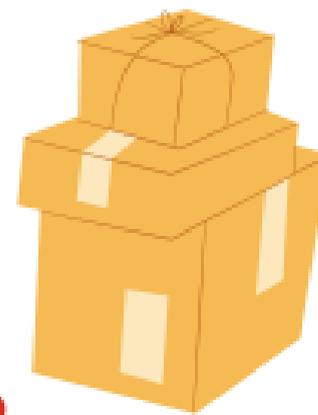

Las horquillas de las  
carretillas manuales no  
deberán ser utilizadas  
con este embalaje.

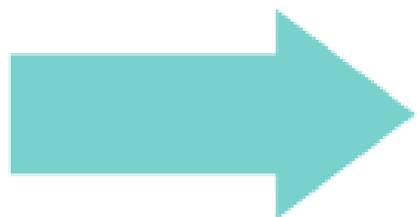

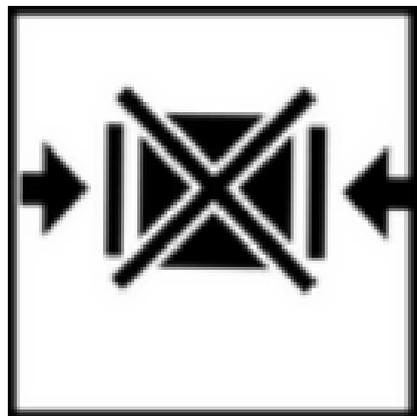

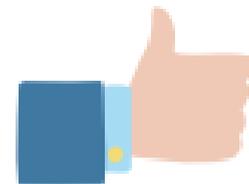

## Límite para apilar KG

Indica la carga de  
apilamiento máximo  
permitida sobre el  
embalaje de expedición.

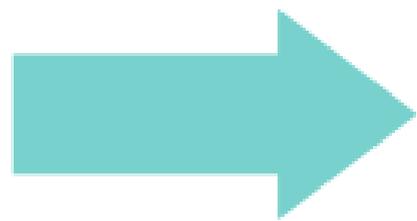

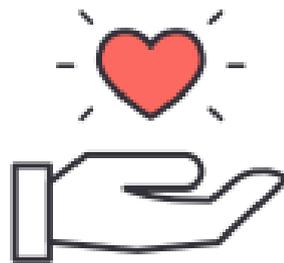

No colocar  
mordaza

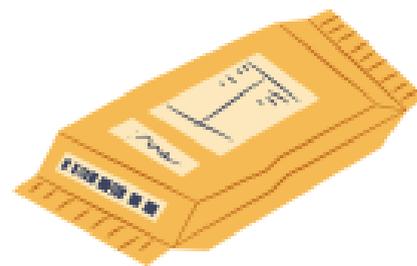

**No utilizar abrazaderas en los  
lados señalados para manipular  
el embalaje.**

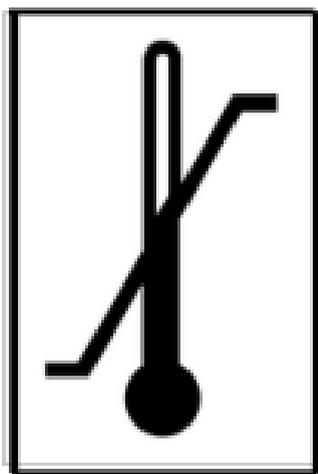

**Manipular  
con cuidado**

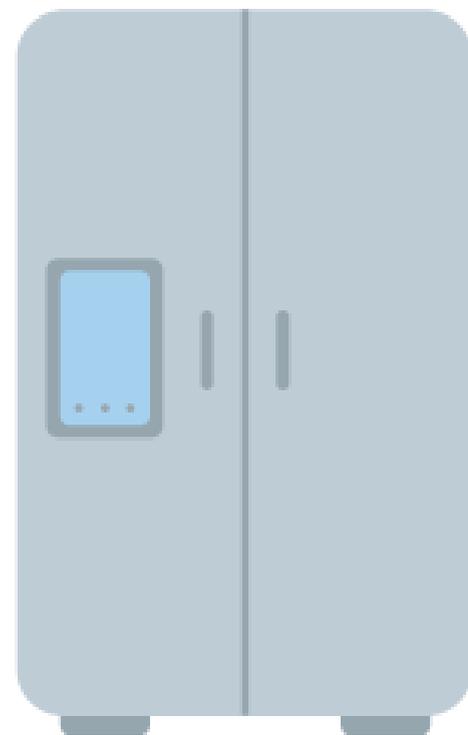

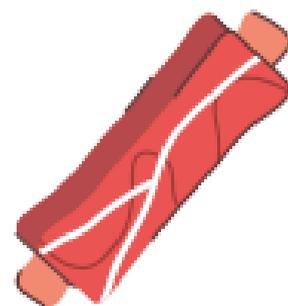

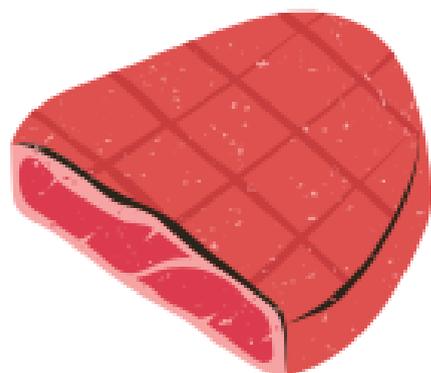

**El contenido y su  
embalaje debe ser  
manipulado con cuidado  
en todo momento.**

Límite de  
temperatura

**Indica límites de  
temperatura entre  
los que debe  
almacenarse y  
manipularse el  
embalaje  
de expedición.**
